

Shhh...We're in the box!

MYO acoustic booths

High quality acoustics, made in France

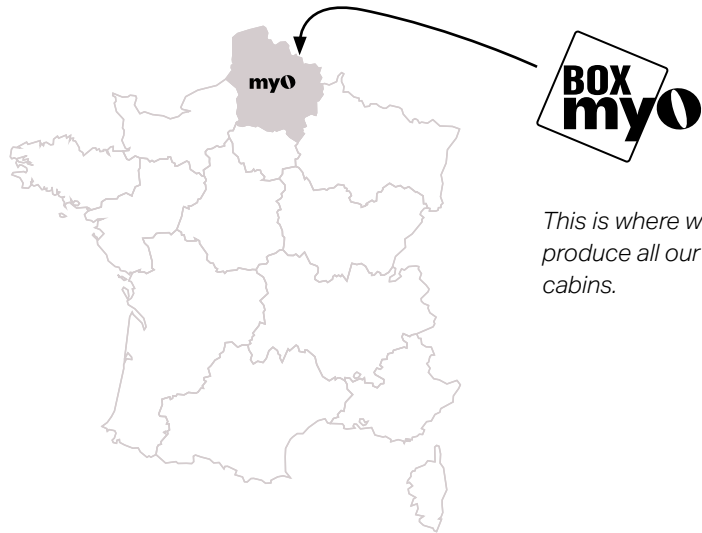

Each of our acoustic cabins is manufactured with particular care in our workshops in the Hauts-de-France region. Custom-built or ready-to-install, they can be adapted to your needs, and can be assembled, dismantled and moved at will. Guaranteeing a serene working environment, they evolve with your spaces, adjusting to each environment for optimum comfort.

Ready-to-install
A booth that can be quickly delivered, installed and ready to use

Ready-to-create
Made-to-measure and fully customizable

This is where we produce all our acoustic cabins.

100% eco-friendly

All the materials that go into our acoustic booths have been selected on the basis of their environmental labels.

Our booths are designed and manufactured at our workshops in the North of France, and are part of our policy to use short supply chains: the majority of our suppliers are located less than 100 km far from our company.

100% comfortable

Our booths are known for their acoustic qualities and are all tested in line with the ISO 140-4 standard. They guarantee optimal isolation from outside noise so you can work, telephone and confidentially talk, all in a space where every detail has been designed for your everyday comfort and efficiency.

The READY-TO-INSTALL acoustic booth

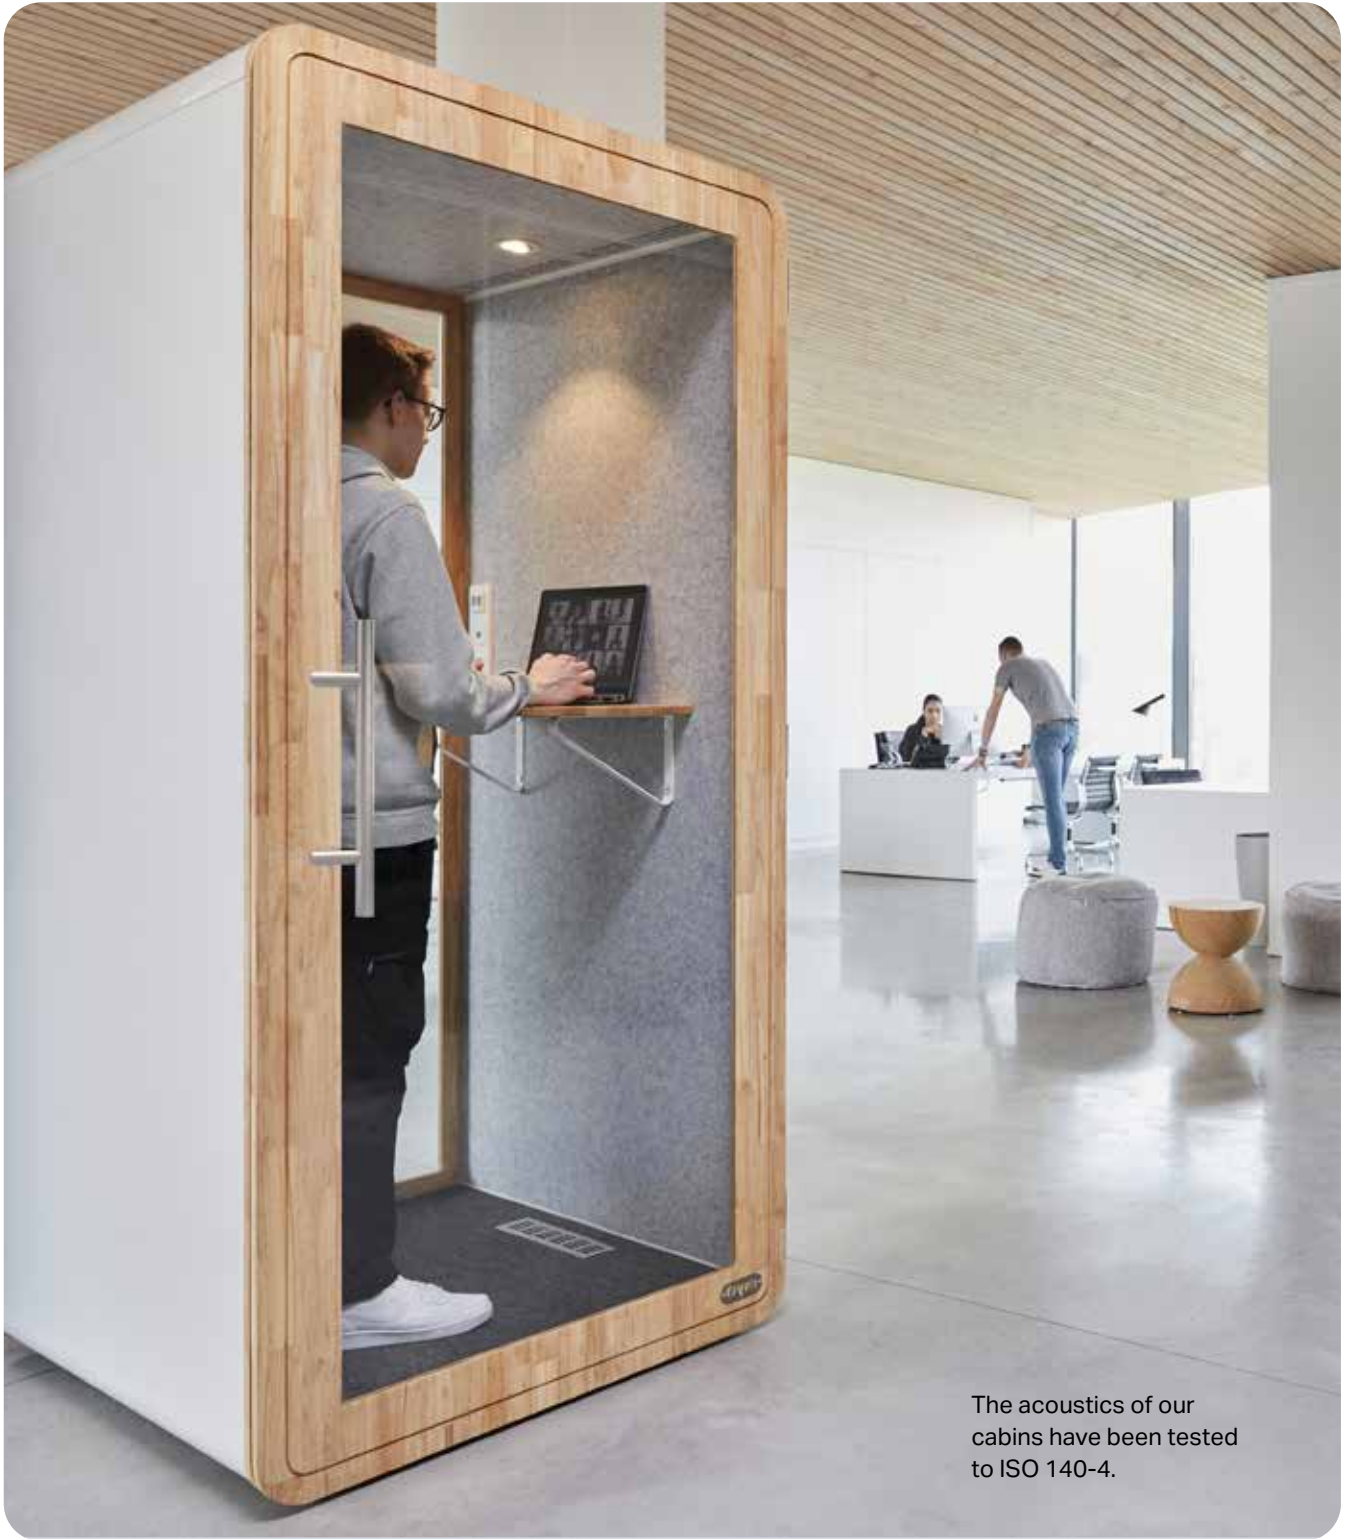

The Woody box is absolutely perfect for making a confidential phone call, rehearsing a presentation in peace or conducting a videoconference with an out-of-office team. It's easy to install, can be placed wherever it is needed, assembled and disassembled as many times as you want...

Designed & produced in our workshops

FRENCH MANUFACTURING
SUSTAINABLE MATERIALS

The acoustics of our cabins have been tested to ISO 140-4.

28 dB indoor noise reduction from outside.

Acoustic solutions for workspaces

MYO designs and distributes soundproofing solutions for open business areas: booths, panels, suspension and column lighting, office partitions, art panels, etc.

Naturally eco-friendly

Our materials are selected for their environmental qualities: PEFC panels, EU ECOLABEL fabrics, OEKO-TEX acoustic foam...

High-quality soundproofing

All our solutions are tested in independent testing laboratories in line with the ISO 140-4 standard.

Made in France

All the MYO products are manufactured in the North of France according to our short supply chain policy.
