LUGN

Duo 360-Rotating screen

Whether in a trapezoid or rectangle shape, the DUO 360 works in identical pairs, of shape and color, slid onto a common base. The screen consists of a steel frame and an absorbent (± 35 mm) covered with a fleece fabric cover, closed by a fluorescent color zip. Raised by 100 mm on a narrower base, the screens pivot on themselves up to 360°.
